JCOP Members' Car is a Calendar Pinup!

Dave and Karen Murray's 1964 E-Type OTS was ready for its close-up as one of 12 cars featured in Welsh Enterprises' 2017 calendar. December is a good month indeed!

From My Perspective

By Cecile Canales, President

June, 2017

With the spring months and beautiful weather upon us, now is the time to drive the Jags to the many events that JCOP has planned for June. Tuesday, June 6 is JCOP's US Steel Plaza Display of Jaguars. Along with entertainment and food, you will be able to present your Jaguar and enjoy the day around the outdoor patio mingling with other JCOP members. The next JCOP event is Saturday, June 10 with a pleasant drive and private tour of Lenny Fiore's Restoration Facility and Classic Car Museum in Altoona. Spend the day with other JCOP members having lunch at the Park Hills Golf Club, then touring the facility and admiring the cars. Our third event planned for June is a summer driving event to Butler, PA Saturday, June 24 to honor the Veterans. After a breakfast buffet at the Marriott, members will caravan with a police escort to the VA hospital, give tribute and distribute ice cream to the Vets. Much time has been devoted to organize these events so plan to attend and meet other Jaguar enthusiasts. Thanks to Dolly Taskey for co organizing the US Steel Plaza event; thanks to Bryan and Candy Williams for organizing the Lenny Fiore drive to Altoona; and thanks to Dolly Taskey and Karen Murray for organizing the Honoring the Vets drive to Butler, PA.

JCOP members also had the occasion to attend two terrific events in May. On May 7 JCOP and RROC members delighted in a Sunday driving tour to Hermitage, PA with an extensive brunch buffet, tour of Tara Country Inn, then a tour of the Buhl Mansion Guesthouse and Spa. Thanks to Stuart Steinberg who "raises the bar yet again" as members "departed with a feeling of having been transported to a more elegant era" as described by Dolly Taskey. On May 19-21, members went to the Carlisle Multi-Club Jaguar event at the Carlisle Import and Performance Nationals in Carlisle, PA. It was a very nice event with many people stopping by to talk and take pictures of the cars. Velocity Channel came by and filmed the cars which may be as a segment of their Legends show in the fall. The location of the tent was very good in relation to all of the other activities on the show field. Thanks to Gary Kincel who chaired this event and answered all of your questions. These events are made possible through your support, attendance, and assistance. We appreciate the many members who volunteer their precious time to organize these activities for our club. Without your help, we would not enjoy the camaraderie of our members along with the joy of driving, displaying, and admiring the Jags.

This month's segment on my reflections of the Jaguars that I have owned is about our 1989 Jaguar XJS two-door convertible. This beautiful, black V12 Jaguar has a tan interior and is probably the most comfortable Jaguar that we have owned. We purchased it from a friend in Pittsburgh who owns a large construction company and gave the car as a wedding gift to his wife. After a few years, she rarely drove the car and after many month of asking if we knew of anyone who wanted to buy the car, we finally purchased it for ourselves. Prior to our purchase the car was resprayed with a clear coat which gives it a spectacular shine. It is a car with the smoothest ride and is fun to have the top down leisurely driving through the countryside. We have driven the car to many club events including fall leaf tours and several trips to Watkins Glen. The car is now in CA purchased by our dear friends who love the car and give us the opportunity to drive it when we visit. The car still has less than 50,000 miles and has been in several weddings. It is truly one of the most enjoyable and elegant cars we have ever owned.

(There may or may not be an after-party. Stay tuned.)

"Better than honor and glory, and History's iron pen,

Was the thought of duty done and the love of his fellow-men."

– Richard Watson Gilder

Here's hoping that our presence and our cars will bring lots of smiles, shared stories, friendship, and fun. Let's show all of them how much we care!

In case of rain, we will "soldier on" … as our Veterans always did. Invited into the facility, we can still accomplish most of the above. And most importantly – we can still listen.

Hahn Vorbach Restoration and 3D Works Technical Session

By Rich Aronson

On Saturday, April 22, JCOP and RROC members flocked to Hahn Vorbach in Harmony to learn of the nationally renown shop's expansion into 3D part printing manufacturing services. Through custom design, reverse engineering and scanning, unavailable and broken or worn parts can be made whole again for use in our vintage cars.

Paul Vorbach and Bill Hahn, joined by Amy Beck, welcomed our joint membership to a hospitable and informative session. Paul amazed us spectators by demonstrating how components can be produced to appear and function as new by this high-tech process. It was explained that if a customer has a missing or damaged "left side" part, HV is able to scan the "right side" part and invert the image to come up with the missing part that's required!

Demonstrated were everything from carburetor housings to dash control knobs produced to supply long unavailable stock, Bill and Paul explained that a needed trunk emblem for a top world-class 300 SL Roadster restoration was the inspiration to grow the business for universal applications – with the result that innovation and creativity at HV is almost limitless to supply parts that are "NLA" from current or former manufacturers.

Our members along with our RROC friends enjoyed the event and each other – which included the 3D "seminar," a buffing instruction demo discussion which lasted over 30 minutes given the interest and questions of the guests and plenty of refreshments.

Thanks for HV and the curious attendees from JCOP, RROC and CCAC for a successful event!

Pittsburgh Vintage Grand Prix: 10 Days of Motorsport Action

By Candy Williams

Monaco has its Historic Grand Prix; Pittsburgh has its Vintage Grand Prix.

The only US vintage races still run on city streets, PVGP celebrates its 35th anniversary this summer with 10 days of motorsport fun from July 7 to 16.

The esteemed collection of car displays, rally, gala, car cruise, parade and more spans two counties and six venues and truly has something for everyone.

A new addition this year is a "Passport to Elegance" Jet Center Party be held July 13 in the hangar of the Voyager Jet Center at the Allegheny County Airport.

The event features a live concert by a Beatles tribute band surrounded by exotic vintage cars and airplanes.

The PVGP calendar of events will run in the July Jargon, but you can check them out at pvgp.org.

PVGP is dedicated to its two charities, the Autism Society of Pittsburgh and Allegheny Valley School.

On Feb. 16, 2017, PVGP and presenting sponsor the Greater Pittsburgh Automobile Dealers Foundation, presented a $405,500 check to the two charities, representing $5,500 more than last year's record. Since its start in 1983, PVGP has donated an astounding $4.75 million to its two worthy charities.

Jaguars played a starring role in recent UK wedding of Pippa Middleton

"The E-type caused a sensation on its debut at the Geneva motor show in March 1961, when one of the show cars was famously driven from the factory at Browns Lane in Coventry to Switzerland by Jaguar's famed test driver Norman Dewis."

22 May 2017
By Paul Hudson
The Telegraph

The Jaguar E-type in which Pippa Middleton and her husband James Matthews departed the nuptials is the oldest surviving Series 1 Roadster, built in February 1961 and registered as 77 RW on the 24th of that month.

It is the two-seater open version of what has been described as the most beautiful car in the world, with a 3.8-litre straight-six under the bonnet developing 265bhp. It was also available as a fixed-head coupé (FHC).

According to the Jaguar Daimler Heritage Trust, 77 RW is owned by Mr Michael Kilgannon and is on permanent loan to the Trust.

The E-type caused a sensation on its debut at the Geneva motor show in March 1961, when one of the show cars was famously driven from the factory at Browns Lane in Coventry to Switzerland by Jaguar's famed test driver Norman Dewis.

Two E-types served as press demonstrators. One of them was this car, 77 RW, built in February 1961 as the first production two-seater; it is now the oldest surviving open E-type. 77 RW was later used by *The Motor* for its road test, published on March 22, 1961.

In 2000, Mr Michael Kilgannon, the long-term owner of this historic car, kindly put 77 RW on permanent loan to the JDHT. The car was then completely restored with the generous assistance of Martin Robey Limited of Nuneaton.

The E-type was developed from Jaguar's successful D-type racer, which had won the Le Mans 24 Hours race three times from 1955 to 1957. Originally intended as a follow-up competition car to the D-type, the E-type eventually emerged as a road-going sports and grand touring car.

The svelte styling of the E-type was clearly based on the D-type, the work of the aerodynamicist Malcolm Sayer. Both cars shared the same basic structure, a monocoque with a tubular front subframe to hold the 3.8-litre (later 4.2-litre) straight-six engine and four-speed gearbox.

It had disc brakes all round (a type developed on Jaguar's C-type racing cars), as well as independent rear suspension.

Thanks to its unbeatable combination of price and performance, offering a top speed of close to 150mph for little more than £2,000, it became an instant success, particularly in the vital American market.

Pippa arrived at the nuptials with her father Michael Middleton in a 1951 Jaguar MkV drophead coupé. The MkV was introduced at the 1948 London Motor Show, and about 9,500 saloons and only 1,000 drophead coupés were built between 1949 and 1951.
